

Meopham School

Catering Cashless System

Our cashless catering system operates by reading the thumbprint of students and staff.

The Biometric Trust-e Cashless System is supplied by Nationwide Retail Systems Ltd.

They require the consent of a parent in order that the biometric information of your child can be processed. Please be assured that this information remains within the school and that the biometric information taken is an algorithm and not the actual fingerprint.

If you choose not to have your child registered, the school will provide an alternative method of identification (4 digit PIN code).

The preference of the school is to use biometrics as this is more secure and faster than any other method of identification.
